

Please do not weaken Wisconsin's "Do Not Call List." I know the products that are available and will make contact with providers that I want after doing my own research. I will never purchase from a telephone solicitation and I resent the intrusion on my life. I am also sick of the politicians (from both parties) representing the interests of business and large donor organizations over the wishes of the individual citizens that elect them - this is just one more example of that behavior. The airwaves are a public trust - please listen to the public and respect their wishes.
